

Event or Venue Specific Licence Application Cover Notes

1. General information:

- If the proposed service does not fall into the event or venue specific licence category, the Authority will inform you of the category it has determined to be correct based on the information that you have provided in your application.

2. Applying for a licence:

- The Authority recommends applications for Event/ Venue licences are made at least six weeks in advance of the first proposed service.
- Event or venue specific services are to bring patrons to and from the event or venue. Travel between intermediate stopping place locations is not permitted. Therefore, on the outbound journey to the event/ venue passengers may only be setdown (SDO) at the event/ venue itself, all other stopping place locations are pick-up only (PUO). On the return journey, pick up of passengers is only allowed at the event or venue, all other stopping places are for the setdown of passengers only.
- All licensed services are granted on the basis that each departure is provided by one bus only. If you intend to use more than one bus to provide any departure, please enter the maximum number of vehicles proposed into the timetable.
- All vehicle documentation necessary to provide your proposed service in addition to any existing licensed services should be submitted at application stage.
- All sub-contractors should to be declared by you at application stage.
 - a. This includes submission of their operator licence number and tax clearance reference, as well as a copy of the signed sub-contracting agreement and documentation for all vehicles that they will potentially provide.

3. Offers of grant of a licence:

- Unless stopping place approval for each stop location has been submitted with your application, if the application is granted an offer of grant of licence (“Offer”) will issue to you.
- This Offer will require you to provide certain documentation, including stopping place approval from each road authority/ landowner for each location where you propose to either pick-up or setdown passengers. **Stopping place approval can take several weeks to obtain, please ensure that you take this potential timeline into account when making your application.**
- No licence can issue until all of the requirements of the offer have been met.

4. Requirement to have a licence:

- It is an offence under the Public Transport Regulation Act 2009 (as amended) to provide a public bus passenger service without a licence. Each offence is subject, on summary conviction, to a fine of up to €5,000.
